

## Profile

I am a University Technician in Computer Science, I have knowledge in various areas of computer science, particularly in the area of programming with applications oriented to desktop and web. I have knowledge of the programming languages PHP, Html, Css, Javascript, C#, Sql, FoxPro, Visual FoxPro, Asp.Net, Delphi, Java. I have supported through virtualization (VirtualBox / VMWare) in servers, desktops, office applications and database engines (MySQL / SQL Server). I have had the opportunity to work with graphic design applications such as Inkscape, Gimp, PhotoShop, CorelDraw, etc. With knowledge in networks and structured cabling. Also with average Docker knowledge. If you want to know more about me, visit my website, Portfolio section.

## Skills

- PHP
- HTML/HTML5
- CSS
- SQL
- Asp.Net
- C#
- Delphi
- Java
- JavaScript
- FoxPro
- Visual Foxpro
- Virtualización
- Base de Datos
- Inkscape
- Gimp
- PhotoShop
- Illustrator
- CorelDraw
- OS Windows
- OS Linux
- Support
- Docker

## Languages

- Spanish (native)
- English (A2)
- Czech (A1)

## Education

*1989 - 1995*  
University Institute "Antonio José de Sucre",  
Valencia, Venezuela.  
Higher University Technician in Computer Science.

## Experience

*2020 - Presente Fecha*  
**OPERATOR.**  
**Reconext s.r.o. Říčany. Czech Republic.**  
I am assigned to the Microsoft project performing tasks at the discretion of the group leader. Due to a confidentiality agreement with the company, I cannot give details of the work carried out on this project.

*2018 - 2020*  
**DISHWASHER.**  
**Hard Rock Cafe s.r.o. Praha 1. Czech Republic.**  
Cleaning activities in different areas such as kitchens, room-type refrigerators, etc. Management of specialized equipment in the washing and disinfection of utensils for the kitchen and the restaurant in general.

*1998 - 2015*  
**SYSTEMS PROGRAMMING ANALYST.**  
**University of Carabobo, Valencia, Venezuela.**  
He develops projects in the area assigned to him, supervising the development of programming according to design. Test, evaluate and recommend software. Follow up on the systems implemented and make the necessary corrections. Design and install network schemes. Define and implement the access levels to the database. It establishes the means and details of the data storage, tables, files, restrictions and security to be applied in the systems. Knowledge of different programming languages. Etc.

*1990 - 1998*  
**PROGRAMMER I.**  
**University of Carabobo, Valencia, Venezuela.**  
Design and application of programs and / or systems. Coordinate the work plan, together with the supervisor. Medium knowledge of UNIX. Prepare periodic reports of the activities carried out. Knowledge of Novell Netware 3.11. Maintenance and / or repair of computer equipment. Etc.
